

Fourth Grade

Quantity

- Approximately forty minutes of homework Monday-Thursday, including studying.
- Daily and weekly assignments, as well as long-term assignments such as book reports and projects, are to be expected and time should be budgeted accordingly.

Grading

- Assignments are graded and/or checked for completion and understanding.
- Homework that is taken for a numerical grade is averaged in as a quiz.
- Other homework assignments may be graded as either a check or a zero.
 - A check means the assignment was completed satisfactorily.
 - A zero means the assignment was not turned in on time.
- Checked in homework will be averaged as one of many grades.
For example: 8 out of 10 = 80%

Consequences

- Depending on the frequency and circumstances of missing assignments, some possible consequences could be:
Homework slip, reduction in grade, zero for the assignment, loss of recess, or detention (parents will be notified ahead of time and will have to pick up their child)
